# Accessibility Statements

Our VPAT statement is our Voluntary Product Accessibility Template statement which is available on our website and upon request. It is required of US institutions and demonstrates our commitment to the highest quality accessible online standards W3C. WebAim.org is a site recommended to find out more information about accessible online materials. Many institutions subscribe to the Quality Matters™ rubric and are performing peer reviews on their online and hybrid courses. You will need to include the VPAT statement for ReadSpeaker in your resources for Quality Matters™ reviews.

ReadSpeaker has made every attempt possible to ensure that the print materials provided to you are accessible.
